The State of Washington

OFFICE OF THE STATE TREASURER

Robert S. O'Brien
STATE TREASURER

Olympia

August 9, 1982

A MESSAGE FROM THE CHAIRMAN

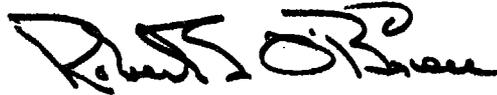

I am pleased to present the first annual report of the State Investment Board for the fiscal year ended June 30, 1982. In the following pages we discuss the activity of the State Investment Board since its inception, provide performance results and itemize the assets in the trust and retirement funds which are under the control of the Investment Board.

The year 1981 must be considered a watershed year in the history of the state's investment program. During the 1981 legislative session, several bills were enacted which resulted in one of the most progressive investment management structures in any of the fifty states. SHB 1610 -- which actually passed the legislature in 1980 and became law only after an override of a gubernatorial veto -- established a fourteen member investment board. The Board is the successor to the various retirement system boards and the State Finance Committee regarding the investment management of the state's \$5.5 billion trust and retirement funds.

The Board is composed as follows: the State Treasurer and the Directors of the Departments of Retirement Systems and Labor and Industries; three members representing the active members of the Employees', Teachers' and LEOFF retirement systems; one member representing the retired members of all systems; and two legislators, one from each the Senate and the House of Representatives. (These positions will not be filled until January, 1983.) These nine voting trustees are augmented by five non-voting trustees appointed by the Board, who are considered experienced and qualified in the field of investments. As it is constituted, the Board represents an effective and workable combination of public representation, trust and retirement funds representation and professional expertise.

Subsequent to the veto override which established the Board, the legislature passed additional investment legislation, now law. The most important of this supporting legislation was SB 3127 which replaced the cumbersome, vague and restrictive language in the law with brief language which simply mandates the Board to diversify the assets of the funds, and invest prudently and according to its established and published policy. Enactment of these two bills effected the centralization of investment authority in the Board and equipped the Board with sufficient investment flexibility to pursue the maximization of earnings within the framework of responsible and prudent investment management.

As Chairman of the State Investment Board during its formation and first year of operation, I can confidently state that the Investment Board, with expanded investment powers, has embarked on a course which has enhanced and will continue to enhance the earnings of the funds it manages, and I am proud to have had the opportunity to serve as its Chairman over the past year.

A handwritten signature in black ink, appearing to read "Robert S. O'Brien". The signature is stylized and cursive.

Board and Funds Description

The State Investment Board was established by Chapter 3, Laws of 1981. The Board is comprised of fourteen members. The membership includes the State Treasurer; the Director of the Department of Retirement Systems; the Director of the Department of Labor and Industries; one active member of the Employees' Retirement System appointed by the Governor; one active member of the Teachers' Retirement System appointed by the Superintendent of Public Instruction; one active member of the Law Enforcement Officers' & Fire Fighters' Fund appointed by the Governor; one member who is a retired member of any state retirement system appointed by the Governor; one member who is a member of the House of Representatives appointed by the Speaker of the House; and one member who is a member of the Senate appointed by the President of the Senate. The two legislative members are prohibited by the Constitution from serving until January, 1983. In addition, there are five non-voting board members who are considered experienced and qualified in the field of investments that are appointed by the Board. As of June 30, 1982, the list of members is as follows:

<u>Member</u>	<u>Position</u>
Robert S. O'Brien	State Treasurer
Robert L. Hollister, Jr.	Director - Department of Retirement Systems
Sam Kinville	Director - Department of Labor & Industries
Gloria Champeaux	Representative - Employees'
Dale T. Mitchell	Representative - Teachers'
Robert D. Panther	Representative - LEOFF
Jack Rogers	Representative - Retired Members
Justin Lee	Non-Voting Member
Edward R. McMillan	Non-Voting Member
Robert Nathane	Non-Voting Member
Frank Nolan, Jr.	Non-Voting Member
Duane H. Thompson	Non-Voting Member

The legislative intent regarding the Board's constitutency was to achieve an effective mix of public and retirement systems representation, and investment expertise.

The staff is headed by an Executive Director appointed by the Board, subject to the ratification of the State Finance Committee. There are thirteen positions on the staff and the staff is divided broadly into two sections — fixed income investments and common stock investments.

In regard to the fixed income program, the staff manages all fixed income securities and mortgages internally. The Board's stock program has two components — one is the actively managed portfolio program in which the Board retains outside managers (currently four), and the other is a passively managed portfolio program in which the staff manages index funds designed to replicate the equity markets on a capitalization-weighted basis. The four managers in the active program are: Batterymarch of Boston, Massachusetts; Columbia Management of Portland, Oregon; Loomis-Sayles of San Francisco, California; and Torray Clark of Washington, D.C. All the managers were carefully selected on their different management styles with the objective to generate incremental value to the funds they manage.

The Board and its staff operate under investment authority which mandates the prudent person rule and requires the Board to diversify the assets of the funds under its authority and establish investment policy and procedures designed exclusively to maximize returns at a prudent level of risk.

The 1981-83 biennial budget of the Board is \$1,135,000. The source of the budget funds is the earnings of the various funds managed as determined by the proportional share of each funds' assets to the total. The Board's budget represents a cost of about \$80 per one million dollars of assets managed.

The Investment Board has investment management responsibility for sixteen funds which are categorized in three classes: the permanent funds, the trust funds, and the retirement funds. There are six permanent funds whose combined assets total \$231.7 million. These are land grant funds whose earnings are dedicated to the capital development and maintenance of facilities and equipment at our K through 12 schools and institutions of higher education. There are three trust funds most commonly referred to as the labor and industries funds or accident insurance funds. Together they total \$1,508.9 million. These funds are derived from insurance premiums paid by employers and employees throughout the state and are used to pay disability, medical, and death benefits to beneficiaries. There are seven retirement or pension funds which total \$3,806.9 million and comprise the largest class of funds under the investment control of the Board.

Investment Policy and Procedures

A. Investment Objectives:

Achieve a long-term rate of return of 1 1/2 to 3 percentage points over the personal consumption expenditures price deflator and equal market rate of return as measured by acceptable market indices or a representative group of pension funds. All funds shall be managed prudently with

the purpose to maximize return at a prudent level of risk. All funds shall be sufficiently diversified.

A. Asset Allocation:

As permitted by statute and the state constitution, ownership of common stocks and real estate shall be at least 40% but not greater than 60% of each fund's assets at market value. The index funds shall not exceed 50% of the equity portfolios.

C. List of Eligible Investments:

Short-Term Fixed Income - One Year or Less

Treasury Bills (U.S. and fully hedged Canadian)
 Federal Farm Credit Consolidated Systemwide
 Discount Notes
 Federal Home Loan Bank Discount Notes
 Federal Home Loan Mortgage Corporation Discount
 Notes
 Federal National Mortgage Association Discount
 Notes
 Student Loan Marketing Association Discount
 Notes
 Repurchase Agreements and Reserve Purchase
 Agreements which are fully collateralized
 by U.S. Treasury or Agency obligations
 maturing within ten years.
 Bankers Acceptances and Negotiable Certificates
 of Deposits of the following banks:

<u>Issuer</u>	<u>Maximum for each type in Millions</u>
Bank of America	(25)
Morgan Guaranty	(25)
Bankers Trust	(20)
Chase Manhattan	(20)
Chemical	(20)
Citibank	(20)
Continental Illinois	(20)
First Interstate - California	(20)
Irving Trust	(20)
Manufacturers Hanover	(20)
Crocker	(15)
First Interstate - Oregon	(15)
FCN - Houston	(15)
FNB - Boston	(15)

<u>Issuer</u>	<u>Maximum for each type in Millions</u>
Harris Trust	(15)
InterFirst Bank - Dallas	(15)
Mellon	(15)
Rainier	(15)
Republic - Dallas	(15)
Sea-First	(15)
Security Pacific	(15)
U.S. National	(15)
Wachovia	(15)
Wells Fargo	(15)

Commercial Paper rated A-1/P-1 and Long Term
Debt rated AA- or better by a nationally
recognized rating agency
Other U.S. Agency or Government Guaranteed
Paper

Long-Term Fixed Income

U.S. Government Securities
Agencies of U.S. Government
Wholly-owned Corporations of U.S. Government
World Bank (Int'l Bank for Reconstruction &
Development)
I.A.D.B. (Inter-American Development Bank)
Federal Farm Credit
Securities eligible as collateral with Federal
Reserve System
Canadian Municipal Bonds (U.S. pay) rated AA
or better by a nationally recognized rating
agency
Canadian Municipal Bonds (U.S. pay) rated A or
better by a nationally recognized rating
agency, wherein the proceeds for the purchase
are derived from the sale of A rated Canadian
municipal credits
Corporate obligations rated A or better by a
nationally recognized rating agency
Corporate obligations rated Baa or better by
a nationally recognized rating agency, wherein
the proceeds for the purchase are derived
from the sale of Baa rated corporate obligations.
Capital Notes, debentures, or obligations of
commercial banks or thrift institutions
located in the State of Washington

Equipment Trust Certificates rated A or better
by a nationally recognized rating agency
Non-rated private placements provided the out-
standing senior debt is rated A or better by
a nationally recognized rating agency.

Common Stocks and Equivalents

Consolidated list of approved common stocks as
of June 30, 1981, and as subsequently amended.

Convertible bonds, notes, or debentures,
convertible preferred or non-convertible
preferred stock of companies which are on
the approved list.

Non-approved list stocks or convertible securities
whose total value does not exceed 5% of the value
of the respective portfolios in which this class
of stocks is held.

Venture Capital

Investment in venture capital partnerships is
limited to 1% of the asset value of those legally
eligible funds provided that such investments
receive the prior review and approval of the Invest-
ment Subcommittee and are reviewed annually by the
Board.

Real Estate

Federally insured and conventional mortgages
authorized under separate policy.

Real Estate Equity (Wholly-owned Real Estate)

Investment in commingled real estate funds is limited
to 5% of the asset value of those legally eligible
funds provided that such investments receive the
prior review and approval of the special committee
on real estate of the Investment Subcommittee.

Financial Futures Contracts

Purchase and sale of financial futures contracts
or put and call options thereon provided that (1)
commitments to contracts or options to sell
securities are fully covered by securities held
in the portfolios throughout the time of the commit-
ment; (2) the aggregate value of the commitments
will not exceed \$100 million par value, and (3)
commitments must receive the prior approval of the
Investment Subcommittee.

POLICY FOR MORTGAGE LOANS

Federally Insured Mortgages

Investments in federally insured mortgages may be in mortgage backed obligations, packages of mortgages or project loans.

Conventional Mortgages - Single Family Residences

The form of single-family mortgage investments may be either a mortgage backed obligation of the issuer which is rated A or better by a nationally recognized rating agency, or a 100% interest or participation in a package of mortgages sold and serviced by an acceptable financial institution. In the latter case the following criteria shall apply:

1. The state's percentage of participation shall be at least 90%.
2. The seller/servicer shall provide insurance on the entire package equal to 5% of the original amount purchased by the state. Eligible private mortgage insurance firms must be approved by FNMA or FHLMC.
3. The seller/servicer shall pass through on a timely basis all principal and interest in the event of a delinquency or default to the extent of the insurance.
4. Packages will have a minimum size of \$5 million and be on forms and of a type, including adjustable rate and payment loans, acceptable to FHA, VA, FNMA, FHLMC, and shall be fee simple first mortgages on owner occupied single-family detached or semi-detached dwellings except as provided in paragraph seven of this section.
5. Mortgages shall have a loan to appraised value ratio of a maximum of 95% but private mortgage insurance is required on any loan whose loan to appraised value ratio exceeds 80% at time of commitment.
6. In addition to staff review, mortgages shall be reviewed and properties inspected on a selected basis by a qualified, independent agent retained by the state.
7. 15% of any package may consist of individual condominium loans in projects which are at least 80% sold and occupied and where no more than 15% of the total units are owned by investors. Such projects must be approved by FNMA or FHLMC.

8. No loan shall have a maturity or amortization schedule in excess of 30 years.
9. No loan shall have a value in excess of 5% of the value of the package.

Conventional Mortgages - Income Property

Investments in conventional income property mortgages may be either in whole loans, participations, or in packages under a participation agreement with an acceptable financial institution. Income property mortgages shall be limited to first mortgages on office buildings, general purpose industrial buildings, unsubordinated land under major buildings, shopping centers and multi-family housing. Income property mortgage loans may include convertible loans, rent participation loans, and equity participation loans. In addition, such investments shall meet the following criteria:

1. Loan packages shall have a minimum size of \$5 million. No loan in the package shall be less than \$500,000 at the time of takedown in any such packages. In packages, seller/servicer's participation interest shall be subordinated to the state's in the event of default.
2. Whole loans shall exceed \$2,000,000.
3. No mortgage loan shall have a loan to appraised value ratio in excess of 80% at the time of commitment.
4. Income property loans and packages shall be reviewed and properties inspected by the staff and a qualified independent agent retained by the state.

In addition to the foregoing, the staff will give due consideration to the advisability of negotiating call and amortization provisions in order to secure the most favorable loan terms for the funds.

Real Estate Equity

In order to attain growth in distributable funds, and capital appreciation, it is desirable to consider developing an investment program in real estate equities for those funds which are permitted by statute and the state constitution to invest in real estate equities. It is recognized that real estate management capabilities, in addition to experienced underwriting capabilities must be available to the Board in order to successfully do this.

Prior to obtaining these capabilities, such a program should be implemented through convertible mortgages, discussed elsewhere, and investment in commingled funds. Commingled funds would include real estate equity funds or mortgage funds whose mortgage loans contained provisions for income or equity enhancements.

Construction Loans

Due to the complex and uncertain nature of construction loans, the state's trust and retirement funds should not participate in this type of financing.

Sellers/Servicers

Sellers/servicers shall be selected on the basis of size and demonstrated capability to originate, close and service loans. Every servicer shall be an approved mortgagee. Sellers/servicers' loan closing procedures and documents shall be in accordance with FHLMC, FNMA or HUD prescribed procedures. In addition, the state shall obtain, when possible, provisions for loan substitutions, buy-backs and private mortgage insurance.

Commitment Terms

Refundable and non-refundable commitment fees in line with industry practices shall be required by the Board. Commitments shall not exceed one year in residential mortgages and two years in income property mortgages. Servicing fees shall be based on the type and size of the mortgage investment, and in line with industry practices. Rate, maturity, discounts and call terms, and other provisions of mortgage loans shall be negotiated in line with industry practices and market conditions.

II. Investment Procedures

A. Powers and Duties of the Board:

1. Establish investment objectives.
2. Establish asset allocation goals.
3. Establish ongoing investment strategy.
4. Establish diversification limitations.
5. Determine allocation of investable funds.
6. Provide for the management of the funds.
7. Publish reports as required.
8. Approve soft-dollar commitments.
9. Approve special programs such as indexing, securities loaning and option writing.
10. Establish approved lists.
11. Monitor performance of the funds.
12. Establish subcommittees as necessary.

B. Powers and Duties of the Director:

1. Carry out the policies, programs, and directives of the Board.
2. Provide for the timing, selection, and execution of investment transactions in accordance with established policy.
3. Execute proxies.
4. Prepare reports of transactions, asset lists, and performance.

C. The Board shall meet at least quarterly to determine investment strategy, allocate investable cash, and review investment transactions and performance results.

D. The Board shall establish an investment committee consisting of the five non-voting members and at least one voting member of the Board. The investment committee will meet as necessary, or at the call of the chairman of the investment committee, to perform duties assigned to it within the limits of the statutes.

E. The investment committee is authorized to approve commitments and investments as authorized in Investment Policy and Procedures, notwithstanding quarterly allocations of cash established by the Board. The investment committee will review such commitments and investments at the next Board meeting.

F. If, during any quarter, it is determined that the expenditure requirements of any fund under the jurisdiction of the Board will exceed investable cash flow, the Director, upon written notice from the appropriate agency official responsible for the administration of the fund, is authorized to reallocate to cash reserves any cash previously allocated by the Board.

G. Changes to the Approved Lists:

The Director is authorized to add or delete issues from approved lists with the approval of a majority of the investment committee subject to Board ratification.

H. Distribution of Commissions:

All bond and stock business shall be executed at the "best available price." "Best available price" shall mean the total cost of the order including purchase price, commission, and other expenses. Business shall be distributed first to those broker/dealers providing research, brokerage, and

financial services to the Investment Board. All things equal, the remaining business shall be distributed to in-state broker/dealers based on their economic impact on the state as measured by their in-state payrolls or underwriting liabilities. Approval of the Board is required for all agreements in which commission dollars are paid for research, brokerage, and financial services necessary to the effective management of the funds.

1. Fixed Income Securities:

The staff shall execute all transactions at the best available price and all exchanges at the best available yield spreads. In the case of all new issue distributions issued at a set price, business shall be distributed first to those broker/dealers providing research, brokerage, and financial services, and the balance shall be allocated to syndicate managers and in-state broker/dealers in approximate relation to their respective underwriting liability.

2. Common Stock:

The staff shall execute all transactions at the best available price. Secondary stock business shall be distributed first to those broker/dealers providing research, brokerage, and financial service. All things equal, the remaining business shall be distributed to in-state broker/dealers based on the size of the firm's in-state payroll relative to those of other in-state firms. In the case of all new issue and other distributions of common stock issued at a set price, business shall be distributed first to those broker/dealers providing research, brokerage, and financial services, and the balance shall be allocated to syndicate managers and in-state broker/dealers in approximate relation to their respective underwriting liability.

G. Proxy Voting - Securities:

The Director shall provide for the voting of all proxies for securities held in the trust and retirement funds. Votes shall be cast in the best interest of the funds, social or other considerations notwithstanding. In any case in which the Director is uncertain, with respect to voting certain proposals, the Board shall make the final determination. The Director shall maintain a record of all votes cast against management.

Fiscal 1982 Market Review

The past twelve months was a difficult period for investors as equities, longer term bonds and mortgages declined in value. Common stock prices, as measured by the Dow Jones Industrial Average and the broader index, the S&P 500, were off 16.7% and 16.5% respectively. Intermediate and long-term U.S. Treasury obligations declined \$16.40 and \$29.60 per \$1,000 respectively over this period. Mortgage values also declined about \$22.50 per \$1,000. Contrary to the trends in the longer-term credit markets, short-term rates declined over the term as the 91-day U.S. Treasury bill yield dropped from 15.51% to 13.02%. Income from interest on bonds and mortgages, however, not only offset declines in fixed income values, but exceeded the inflation rate by a historically wide margin, thus providing a generous real rate of return to the funds.

During the first quarter ending September 30, 1981, the long-term credit and stock markets dropped precipitously. Sluggish money growth and large credit demands, particularly by the federal government, were largely responsible for the broad decline. By contrast, short-term rates moved down in response to large infusions of bank reserves. In the second quarter, a rally in securities prices erased the previous quarter's decline. The advance in both markets was largely attributable to the growing awareness that the economy was softening and a reduction in the discount rate by the Federal Reserve Board.

In the third fiscal quarter the credit and equity markets diverged as long-term bond prices rose marginally while stock returns, including dividends, declined 7.3%. It was a quarter in which the money aggregates rose significantly thus easing credit conditions and producing lower interest rates. However, declining stock markets reflected investor concerns over the performance of the economy, weak corporate profits and the Fed's move toward restricting excessive monetary growth.

During the final quarter of fiscal 1982, both fixed income and stock prices declined in the midst of concerns that an anticipated economic recovery would place stresses on the credit markets, inflation would reaccelerate, borrowing by the Treasury would be heavy, and the budgetary impasse between Congress and the administration would remain unresolved.

In summary, fiscal 1982 was a difficult year for investors, particularly equity investors, as the credit and stock markets fluctuated widely in response to changes in the Federal Reserve Board policy, conflicting signals given off by a weakening economy, and large, seemingly insoluble budget deficits.

Board Operations for Fiscal 1982

With respect to Board activity during the year, the Board held quarterly meetings to review the investment results and investment outlook, act upon investment committee recommendations, and allocate the investable cash for the following quarter. As the fiscal year started, the Board took a cautious approach to the market due to concerns over the continuing high rates of inflation, high interest rates, excessive debt burdens, and a stagnating economy. As a consequence, the Board restricted investments in fixed income securities to only the higher quality mortgages and credits with intermediate term maturities. This policy remained in place throughout much of the year. In the third quarter, policy was amended to allow higher quality, long-term credits. Interest bearing reserves were maintained at 10% of the assets and about one-half the investable funds in the retirement systems was allocated to the stock program. The performance of the funds is under constant review by the Board. During the course of the year, after careful consideration, the Board dismissed two equity managers (not listed above) for lack of performance, and added Wells Fargo Investment Advisors who manage an index fund of 1,900 non-S&P stocks. This "extended market fund" supplements the Board's index funds to give the fullest approximation to a highly diversified low-cost market fund. In other action, the Board reviewed a number of investment programs and approved investment of \$26 million in five different venture capital partnerships and \$40 million in three commingled real estate equity funds.

Regarding staff activity over the year, the staff purchased a total of \$5.88 billion short-term investments and sold \$527 million. Long-term fixed income investments totaled \$263.9 million and were purchased at an average yield of 14.89% and with an average maturity of 10.39 years. Most all purchases were U.S. Government and Agency securities and insured and conventional mortgages. In addition, \$624 million bonds were exchanged for \$626 million bonds. These swaps resulted in improvement in average yield and quality, and an increase in annual earnings of over \$2 million. Many of the exchanges were reversals back into original positions at more favorable prices. The results of these "round trip" reversals generated an additional \$1,434,218 to the funds.

The Board has fully supported instate investment provided that such investments are at competitive market rates and total investment is within diversification limits. At year-end, over \$640 million has been loaned to homeowners and businesses in the state. We estimate an additional \$370 million has been invested in common stocks of businesses that employ people, pay taxes, and lease property in the state. The state was one of the first of the fifty states to develop a comprehensive instate home loan program through the use of mortgage pools and pass-through certificates. The program utilizes a local trustee bank. Through this conventional home loan program \$225 million has been loaned to homeowners over the past several years. Despite this period of high interest rates and a recession which has severely depressed the housing industry, the Board has continued, through

innovative financing, to make loans on residential and commercial property in the state. During the past year \$87.6 million has been committed or invested and an additional \$41 million in loans was under negotiation at year-end. Too, the staff has met with officials of the Home Loan Bank Board and a number of financial institutions on several occasions in an ongoing exploration to find new ways to channel funds into these markets while securing for the fund beneficiaries the highest possible risk adjusted rates of return.

With regard to year-to-year changes in asset values and income in the funds, the combined book values, net of the provision for cumulative deferred gains and losses increased 9.0% from \$5,091.0 million to \$5,547.8 million. Income from the combined funds, aided by investing in a high interest rate environment, advanced from \$410.5 million to \$506.6 million, or 23.4%. Tables of these changes by total funds and by fund groups appear later in this report. Regarding performance of the funds, the Board measures performance according to the principles set forth by the Bank Administration Institute which is the standard methodology in performance monitoring. The key measure is the total rate of return which calculates changes in market values of the portfolios from period to period plus income, and adjusted for cash flows to arrive at a total return. The data is prepared quarterly by the Frank Russell Company and the staff. The current performance data is for the latest quarter, one, two and three-year periods on the common stock and bond portfolios of the retirement funds, and the latest quarter and one-year periods on the bond portfolios of the Labor and Industries funds. Results of various bond and stock market indices and A.G. Becker's universe of bond and stock managers are also included. This information is found in tables following this narrative. In general, the tables show that over most time periods the overall returns in the Employees' and LEOFF bond and stock portfolios have exceeded the market indices and rank in the second quartiles of the Becker Universes. The Teachers' and State Patrol funds stock portfolios did not do that well. However, as mentioned above, this spring the Board took corrective measures and the Board is confident that future results will show the appropriateness of that action.

Legislation

The Investment Board requested only one piece of legislation in the 1982 legislative sessions. The Board requested that a commingled common trust fund be established in the state treasury. The bill would allow the various trust and retirement funds to participate in common programs such as indexing, real estate equity, and venture capital programs. The use of the commingled common trust fund will reduce burdensome paper work, equalize returns among the funds and reduce management fees. The legislation passed and is now Chapter 48, Laws of 1982.

The legislature has passed HCR 37 which urges the Investment Board to emphasize instate investment in view of the economic plight of the

state, and requires the Board to report on such investments in the January, 1983, session of the legislature. In response to HCR 37 the Board passed the following resolution:

RESOLUTION NO. 2

"WHEREAS, the Legislature has passed HCR 37 in the 1982 Special Session; and

WHEREAS, HCR 37 "urges the State Investment Board to adopt as a consideration in selecting investments, secondary to the consideration of maximizing returns within prudent constraints, the impact of such investments on the economy of the state of Washington;" and

WHEREAS, such investments shall include but not be limited to loans to in-state financial institutions, loans to businesses, and other investments which will generate and sustain employment; and

WHEREAS, the State Investment Board is directed to submit a report to the 1983 session of the Legislature "outlining the extent of the investments described in HCR 37;" and

WHEREAS, RCW 43.33A.110 mandates that "the Board shall establish investment policies and procedures designed exclusively to maximize return at a prudent level of risk, and RCW 43.33A.140 cites the Board's obligation to invest according to the prudent man rule; and

WHEREAS, the Board recognizes the depressed economic conditions within the state;

NOW, THEREFORE, BE IT RESOLVED BY THE STATE INVESTMENT BOARD of the State of Washington that within the statutory mandates cited herein and staff capacity, the Board will endeavor to comply with the legislative objectives in HCR 37 by:

1. Continuing to make available programs adopted in Board policy regarding in-state investment in income and residential property;
2. Explore with financial institutions and mortgage bankers possible development of new programs which will enable the Board to first fulfill its fiduciary duties and second, provide for in-state investment;

3. Prepare a written report to the 1983 legislative session summarizing the Board's activities in this area.

ADOPTED at an open meeting of the State Investment Board of the State of Washington, at Seattle, Washington, after notice thereof duly and regularly given as required by law this 10th day of May, 1982."
