

WSIB COVID-19 SCREENING ATTESTATION

Do you have any of these symptoms that are not caused by another condition?

Fever or chills	Cough	Shortness of breath or difficulty breathing	Recent loss of taste or smell
Fatigue	Muscle or body aches	Headache	Diarrhea
Sore throat	Congestion	Nausea or vomiting	

Have you been in close contact with anyone with COVID-19 in the past 10 days? Close contact is being within 6 feet for 15 minutes or more over a 24-hour period with a person; or having direct contact with fluids from a person with COVID-19 with or without wearing a mask?

Have you or a member of your household had a positive COVID-19 test for active virus in the past 10 days, or are you awaiting results of a COVID-19 test as a result of symptoms or exposure?

Within the past 10 days, has a public health or medical professional told you or a member of your household to self-monitor, self-isolate, or self-quarantine because of concerns about COVID-19 infection?

Have you or a member of your household traveled internationally in the past 5 days?

If you answered **NO** to all of these questions, **you may enter the building.**

If you answered **YES** to any of these questions, **do not enter the building** until you have followed the guidance in our Exposure Protocols (see next page).

EXPOSURE PROTOCOLS

YOUR SITUATION	CAN I COME TO THE BUILDING?
<p>You are experiencing symptoms consistent with COVID-19.</p>	<p>No.</p>
<p>You have been in close contact with someone who tests positive in the past 10 days. You have spent a cumulative 15 minutes or more within 6 feet over a 24-hour period or have had direct contact with fluids from a person with COVID-19.</p>	<p>Individuals who are fully vaccinated AND up to date on recommended boosters¹: Yes, if not experiencing COVID-19 symptoms. You must wear a well-fitting upgraded mask at the worksite for 10 days. Monitor for COVID-19 symptoms and isolate immediately if symptoms develop.</p> <p>Individuals who have been diagnosed and recovered from COVID-19 in the past 90 days: Yes, if not experiencing COVID-19 symptoms. You must wear a well-fitting upgraded mask⁵ at the worksite for 10 days after close contact. It is recommended that you get tested⁴ 5 days after close contact. Monitor for COVID-19 symptoms and isolate immediately if symptoms develop.</p> <p>Individuals who are fully vaccinated², Partially vaccinated³ or unvaccinated: No.</p>
<p>You have tested positive COVID-19 test for active virus in the past 10 days, or you awaiting results of a COVID-19 test as a result of symptoms or exposure, or have been advised by a doctor that you are “presumed positive.”</p>	<p>No.</p>
<p>Someone in your household tested positive for COVID-19 in the past 10 days.</p>	<p>No. Your quarantine starts the first day you are no longer exposed to someone who has the virus. You may enter after 5 days of quarantine.</p>
<p>Within the past 10 days, has a public health or medical professional told you or a member of your household to self-monitor, self-isolate, or self-quarantine because of concerns about COVID-19 infection?</p>	<p>No. This falls within “presumed positive”</p>

YOUR SITUATION	CAN I COME TO THE BUILDING?
<p>You or a member of your household have traveled internationally.</p>	<p>Individuals who are fully vaccinated AND up to date on recommended boosters¹:</p> <p>0-3 days ago. No.</p> <p>3-5 days ago. Yes, if negative COVID-19 test. You will need to wear a mask until day 5 has passed.</p> <p>5+ days ago. Yes.</p> <p>Individuals who are fully vaccinated², Partially vaccinated³ or unvaccinated:</p> <p>0-5 days ago. No.</p> <p>5+ days ago. Yes.</p>

¹Fully vaccinated AND up to date on recommended boosters in this instance includes individuals who:

- Have completed their primary series of an approved vaccine and recommended boosters; OR
- completed the primary series of Pfizer or Moderna vaccine within the last 5 months; OR
- completed the primary series of J&J vaccine within the last 2 months; OR
- completed all additional primary shots for immunocompromised employees (3 doses); OR
- completed the primary series of a WHO approved vaccine and it is within the timeframe where a booster is not yet recommended (primary series has not reached the point of diminished effectiveness where a booster is recommended).

²Fully vaccinated in this instance includes individuals who:

- Have completed the primary series of Pfizer or Moderna vaccine over 5 months ago and have not received the recommended booster(s); OR
- completed the primary series of J&J vaccine over 2 months ago and has not received the recommended booster(s); OR
- completed the primary series of a WHO approved vaccine and has not boosted at the point the booster(s) is recommended

³Partially vaccinated in this instance includes individuals who:
has not completed their primary vaccine series.

⁴When test results are used for worksite access, the test needs to be done by a doctor, pharmacy, testing site, or authorized employer. The test needs to be an antigen or PCR test unless otherwise specified, and the actual test result needs to be reviewed if allowing return to work or other types of access to worksites or others as a part of work.

⁵Upgraded masks referenced above include double masking, KN 95s, or N 95s. Fit testing is not required under these circumstances as long as the person has a choice in which mask to wear or the mask requirement is for source control (keeping the workplace and others safe during the remainder of the isolation or quarantine period).
